Dear Parent/Carer

Ransomware Attack – Update

We have reported the recent ransomware attack to the Information Commissioners Office, Action Fraud, the Police Cybercrime Unit and the NW Regional Organised Crime Unit. It came to light this week however, that data taken from school has now been released on the internet. Upon investigation, it currently appears that no confidential or sensitive information has been published. Whilst we continue to investigate the data released and work with local police and cybercrime units, we ask that you remain vigilant when using the internet.

Yours sincerely

Mr B. Corbett
Headteacher
